

SHADEFIN MINI ROD HOLDER MOUNT INSTALLATION INSTRUCTIONS

T10-4000-10

Thank you for purchasing the ShadeFin® Mini Rod Holder Mount by TACO Marine®. Since 1959, we have taken great pride in offering the highest-quality products with excellent customer service. We stand behind our products 100 percent. Please visit our website tacomarine.com for more detailed information on a wide variety of products and to register your new product for warranty.

Box Includes

- 1 ROD HOLDER MOUNT

Common uses for this mount

- ROD HOLDERS WITH > 1.75 INCH INSIDE

Dimensions

- 9-1/4" L X 1.74" OUTSIDE DIA.

1 SELECT ROD HOLDER LOCATION

The Rod Holder Mount is designed to fit into any commercially available rod holder with a vertical post or tube that has an inside diameter of 1.75" or greater.

NOTE: To use this mount in a T-top rod holder, first check to ensure the rod holder is firmly welded in place.

2 INSTALL MOUNT

Take the mount and place it inside the rod holder up to the bottom edge of the post (see Figure A). Everything below the post should be inside the rod holder, with only the Post and Knob visible (see Figure B). Hold the mount in place while turning the black knob on the top of the post clockwise until the mount is firmly in place in the rod holder. You should not be able to remove the mount once tightened. If the mount can be moved, continue turning the knob until it is snug in place.

3 INSTALL SHADEFIN MINI

Now place the ShadeFin Mini assembly onto the vertical post of the Mount, and lock in place. Refer to the ShadeFin Mini manual on tacomarine.com for detailed instructions.
