

ASSEMBLY INSTRUCTIONS

TACO[®]
MARINE

BIG GAME POLY ROD STORAGE CART

Thank you for purchasing a quality Taco Marine product. As a family-owned business since 1959, Taco Marine takes pride in offering the highest quality products with excellent customer service. We stand 100% behind our products. Please visit our website, TacoMarine.com, for more detailed information on a wide variety of Sport Fishing products.

1. Attach bottom ring to side panels using 1-1/4" screws, caps & cover base.
2. Insert slant boards into the lower pockets of the side panels. Using the 1-3/4" screws, caps and cover bases insert screws through feet, side panel into slant. Do not over tighten!
3. Install the top ring with the 1-1/4" screws, caps and cover bases.
4. Install casters on feet with screws facing outward.
5. Install spreaders between slants by pushing spreader between slants and twisting 90°. Spreaders are used to evenly maintain the heavy load of rods and reels.

Note:

When assembling and before screwing, make sure parts are flush with mating parts then apply a few drops of glue at every joint to increase rigidity.
