

LUMA LED Bright Stick Light

WARNING! **Read Before Operating**

**TO PREVENT THE POSSIBILITY OF
FIRE, INJURY OR DEATH:**

- Do not operate lights while plugged into any power recharge source.
- When charging do not operate light.
- Do not operate while vessel or vehicle is running. Engine must be turned off to avoid overheating and/or fire.

INSTRUCTIONS

It is recommended that for the first use you charge your Bright Stick for 3-4 hours. For best overall battery performance it is best to draw down the battery's charge completely before recharging the light.
