

DOCKSIDE FILET TABLE

Taco Marine Dockside Filet Table is made from extremely durable, lightweight, marine-grade, 1/2" thick Polyethylene starboard material. With UV-resistance, this table will not discolor, crack, mildew or absorb fish odors and is easy to clean. Made from FDA-approved high density Polyethylene for cutting bait, fileting fish or serving food and beverages. Strong Aluminum leg design made from 1-1/2" pipe to assure a secure permanent installation to the dock on 3" x 19" X 1/4" thick continuous flat bar mounting plates.
