

MARINE FABRICATION

Wake Towers

Half Pin

TACO offers a comprehensive line of hardware designed for building and equipping wake towers and ski arches for OEM or custom needs. High quality precision fittings machined from 6000 series solid aluminum stock for strength and anodized for long lasting durability. All TACO pins are counter bored with an air release hole to ensure fast preparation and consistent welding.

F30-1751

Bulk	Style	I.P.S.	Hole Size	Finish
