

SUNDECK LATCH

Taco Marine's Sundeck Latches are low profile, concealed latches. They have universal applications for engine hatches, access panels, cabinet doors, deck boxes and folding seats. The non-slip grip provides a secure grip for lifting large hatches and has an adjustable anchoring stud. Installation for Taco Marine's Sundeck Latches are a simple bolt-down.

FEATURES & BENEFITS

- High performance latches
- Rugged construction
- Positive locking features
- Locking pin and bolt made of Stainless Steel Type 316
