

TACO's
Marine Lumber Cup Holder
Sheet 1 of 1

Bending Area

Bending Area

- Use 1/2" Marine Lumber
- All edges are rounded, using 1/4" round over router bit
- Cup openings are cut with 3-1/2" hole saw
- "V" Grooves at the 4" and 8" Dim are cut using a router with 3/4" V Bit with a 3/8" depth
- Use StarBond adhesive or like along with heat to bend at grooves
- Clamp and allow 24 hours to dry
