

CARBON FIBER TWIST & LOCK TELE-OUTRIGGER POLES

Introducing our first ever Carbon Fiber Twist & Lock Outrigger Poles for the ultimate offshore fishing experience. Our innovative Twist & Lock design eliminates the frustrating task of locating the pin hole, which means that no bolts or pins are required when attaching to the base. The cylindrical design has the strength to allow for pulling full, triple-tier dredges of ballyhoo, mullet or squids at higher speeds. By far stronger and lighter than any other aluminum pole on the market today.

FEATURES & BENEFITS

- Patent US 11,116,197
- UV-resistant, clear coated black carbon fiber pole construction
- Stainless-steel Type-316L swivel rings and anodized aluminum collars
- Triple outrigger line design on the 20' poles for either mono or Dacron
- Patented swivel roller design allows for movement of the rollers to swivel in the direction of lures or bait
- Twist & Lock design eliminates the need for pins or bolts
- Telescopes to less than 8' for bridge clearance and trailering
- Designed for use with our Pro Series GS-500 Outrigger Mount
- The 20' pole is ideal for boats up to 50' long
- Includes adjustable roller line caddy with stainless steel rollers with brass bushings - allowing for easy rigging to the T-Top or gunnel and better line management
- Locking pin design keeps poles from collapsing when fully extended and allows for easy collapsing
- Sold in Pairs

Patented Swivel collar Design

Twist & Lock Butt

Line Caddy for 20' Pole

Line Caddy for 16' Pole
