

GRAND SLAM 960-P ELECTRIC MASTHEAD STERN LIGHT

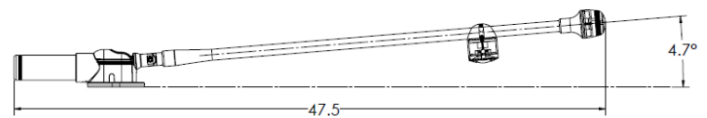

Enhanced safety, durability and style come together in the Grand Slam 960-P Electric Masthead Stern Light. The Grand Slam 960-P features a machined/brite dipped anodized aluminum body and stainless steel Type-316L breakaway pin for superior protection from the elements. Its oblong shape accommodates a longer, stronger and faster motor for optimal performance at sea. Ideal for powered vessels 39.4' to 65.7' (12 to 20 meters), the GS-960-P is certified for USCG-required 3 nautical miles as a 225° steaming light, 3 nautical miles as a 360° all-around light, and 2 nautical miles as a 135° stern light. The GS-960-P enables boaters to easily adjust their Masthead Stern Light from the safety of the deck with the push of a button. This is a fully electric unit with a hidden base wire inside the hardtop, which easily installs to the top's surface. It has the same hole pattern as the GS-950 and GS-960, making upgrades possible, and fits all top thicknesses. The GS-960-P lights run on 12 volts and consists of four 3-watt LED Cree chips driven by two Mean Well drivers.

FEATURES & BENEFITS

- ▶ For boats 12 meters (39.4') to 20 meters (65.7')
- ▶ Meets USCG 3nm 225° Steaming Light requirements
- ▶ Meets USCG 3nm 360° All-Around Light requirements
- ▶ Meets USCG 2nm 135° Stern Light requirements
- ▶ Meets NMMA/ABYC C-5 5.8 Standards requirements
- ▶ NMMA type accepted approved product
- ▶ Machined / bright dipped anodized aluminum body with a brushed finish
- ▶ Includes tube, masthead light, stern light and 6" lead of 20-gauge wire from the base
- ▶ 12-volt DC power supply for light function
- ▶ Updated module allows for On-Off-On switch technology
- ▶ Momentary switch application is not required
- ▶ Threaded shaft for consistent lift and descent
- ▶ Features stainless-steel Type-316L breakaway pin for manual operation
- ▶ Oil-lite bronze bushings for smooth operation
- ▶ Mounts to all hardtops
- ▶ Reliable long-life LEDs
- ▶ 6-watt stern light and 12-watt anchor
- ▶ Low draw, 0.6 amps per light
- ▶ Low voltage 12-24VDC
- ▶ Pairs with Backing Plate (BP-0850AEY), which is sold
