

## SUNCOAST PREMIUM HELM BENCH

Introducing the Suncoast Premium Helm Bench - an innovative, upscale bench available now to OEM. Designed specifically for fiberglass, this 2-part bench seat features a separate back and a forward-flip-up seat bottom for box storage access. The flip-up seat bottom features three heavy-duty stainless steel Type-316L hinges with an attached gas shock for controlled lift and descent. The seat bottom easily secures in place with a high-density polyethylene slide-lock system with a spring-loaded latch located at the aft center of the base. The seat bottom's attractive design also includes dual rollback bolsters in a 50/50 split - allowing for boaters to stand and steer at the helm. This helm bench also features two back-mounted stainless steel, adjustable armrest brackets on port and starboard.

### FEATURES & BENEFITS
